Our quote calculator has been designed to provide you with what we hope is a comprehensive quote whilst taking up only the last amount of your time possible. Please note that our quote are given without obligation leaving it entirely up to you whether you choose to instruct us, but we obviously hope you will.

In order to provide you with a quote we have made some assumptions which we feel are true in the majority of cases we are asked to assist with, these assumption are:

- a. this is a standard transaction and that no unforeseen matters arise including for example (but not limited to) a defect in title which requires remedying prior to completion or the preparation of additional documents ancillary to the main transaction
- b. that where the property is leasehold you are buying or selling an existing lease and we are not dealing with the grant of a new lease
- c. the transaction is concluded in a timely manner and no unforeseen complication arise
- d. all parties to the transaction are co-operative and there is no unreasonable delay from third parties providing documentation, this is particularly relevant to the timescale we quote as an uncooperative party in the chain can be entirely outside of our control and

can delay matters for no discernible reason.

Please note:

We do not charge extra for Tyneside flat, in fact we specialise in them

We do not charge extra for right to buy purchases

We do not charge extra for drawing down the bonus on your Help to Buy ISA

We do not charge extra for Leasehold Properties but you do need to be aware that these can be more expensive as additional costs are payable to third parties, they can include:

- Notice of Transfer fee and Notice of Charge fee (if the property is to be mortgaged) – This fee if chargeable is set out in the lease or by the Freehold and is commonly between £75- £250
- Deed of Covenant fee – many leases require that you enter into a direct agreement with the freeholder or management company who are then usually entitled to charge an additional fee which can be difficult to estimate. Often it is between £100-£300.
- Certificate of Compliance fee - To be confirmed upon receipt of the lease, as can range between £100– £200

These fees vary from property to property and can on occasion be significantly more than the ranges given above. We can give you an accurate figure once we have sight of your specific documents. You should also be aware that ground rent and service charge are likely to apply throughout your ownership of the property. We will confirm the ground rent and the anticipated service charge as soon as this we receive this information.

How long it will take from your offer being accepted until you can move in to your house will depend on a number of factors. The average process takes between 8-10 weeks. It can be quicker or slower, depending on the parties in the chain. For example, if you are a first time buyer, purchasing an empty property and you have a mortgage in principle, it could take 6 weeks. However, if you are buying a leasehold property that requires an extension of the lease, this can take significantly longer, between 4 and 6 months.

The reason that even an apparently straight forward transaction takes quite a long time is that there is a detailed legal procedure to go through. The precise stages involved in the sale or purchase of a residential property vary according to the circumstances however the following key stages may be of assistance.

- Taking your instructions and give you initial advice
- Check finances are in place to fund purchase or obtaining the legal title in respect of your sale
- Drafting or Receiving and advise on contract documents

- Exchanging contracts and notify you that this has happened

- Deal with payment of Stamp Duty/Land Tax on your purchase and redeeming the mortgage on your sale
- Deal with application for registration at Land Registry

It's not an easy process and we should not pretend that it is but we are experts and will guide you through it from start to finish.
